

Facilities Management

Monthly Report

November 14, 2013

- Police Barn Project is complete. The scope of the project included new vinyl siding, new gutters and down spouts, new man door on the north side, aluminum paint applied to the roof, new fascia installed, and any rotted wood replaced.
- A bid has been accepted on the Police Building Project. Expect work to begin in the next two weeks. The new drive on the south side of the building is now complete.
- The results of the energy audit have been presented to all the Directors and to Members of Council. Hopefully the project will begin in short order.
- I have been receiving quotes from cleaning companies and safety and security companies to get better control of the contractual vendors the city is doing business with. Decisions will be made for a fresh start in 2014.
