

CITY OF GROVEPORT  
REPORT TO MAYOR AND COUNCIL

July 28, 2014

**ADMINISTRATION – Marsha Hall**

- Status of on-going projects

- Town Center project – *In progress*

- Port Rd. reconstruction – *In progress*

- Water Treatment Plant – *Pre-construction meeting held*

- Legislation

- Pond Rules:

- I researched the ODNR state rules for fishing. Their limit for trout, which is what I understand we stock at Palm Pond, is five (5). I have added this limit to our Pond Rules in order to coincide with their rules. Various other fish have different limit amounts and some have none. In case we would ever stock with other types, using five for any type would be the most simple. Assuming Council approves this addition by passage of legislation, I will have new signage created. The Park Hours signs have already been ordered.

Change to Organization Chart – Community Affairs:

We are requesting the Organization Chart be modified to reflect 2 Full-time Program Coordinators. In consideration, we would remove 3 Part-time positions.

Madison Township Firefighters Local Union Collection for Muscular Dystrophy:

The Clerk of Council was unaware of the need to introduce this legislation. Because this needs to be effective by the end of August, we are asking for three readings at tonight's meeting. The 30 day period will then allow time for this to be effective.

Five Year Capital Improvement Plan (CIP):

We are introducing a resolution adopting the Five Year CIP for the upcoming five year period. We have included several projects that are part of the previous CIPs. In addition, we have included a few major additions. The most evident addition is the inclusion of an annual street maintenance program. We will discuss the CIP in detail during the August 18 Committee of the Whole Meeting. We will be introducing legislation for two applications for Ohio Public Works Commission funding at the August 11 Council meeting.

- Mosquito Program

- I received an update from the Franklin County Health Department on the mosquito program we contract with them. They had their first pool of mosquitoes test positive for West Nile virus recently, but none from our area. They are finding high numbers of mosquitos in some areas, but again not in ours at this time. If they find the need to spray Groveport due to high numbers, they will contact me directly. You can review the trap report for Groveport on their website at [http://www.myfcph.org/mosqmgmt\\_surv.php#numbers](http://www.myfcph.org/mosqmgmt_surv.php#numbers).

CITY OF GROVEPORT  
REPORT TO MAYOR AND COUNCIL
