INFORMATION TECHNOLOGY DIRECTOR
REPORT TO COUNCIL FOR AUGUST 15, 2022

GENERAL:

- New workstations requested by departments have been installed.

- Improvements have been made to improve network security.

MEETINGS:

- Meeting with a cabling consultant to estimate the cost of rewiring network cable for each building.

- Meeting with an AV consultant to estimate the cost of upgrading the Audio/Video System for the Golf Course Event Center.

PROJECTS:

- **Fiber Optic Internet with Everstream**

    o ThinkCSC has successfully migrated the City of Groveport over for the Golf Course, Recreation Center and Town Hall.

    o Two issues need to resolved with the network before the Municipal Building and Police Department are completed migrated.

        ▪ DNS Records will be cutover as soon as they are resolved.

- **VoIP Phone System Upgrade/Migration**

    o All telephone numbers with Windstream and thinkCSC have been ported over to the new phone system.

- **Outdoor Aquatics Center Overhaul**

    o Pre-printed key tags have arrived and are now being issued.

    o Licensing for 2D barcode readers has been received. This will be installed on each scanner sometime this month.

- **Recreation Center Overhaul**

    o Estimated pricing has been completed and is pending review for upgrading the Point of Sale Terminals for the Recreation center with the same equipment used for the outdoor pool.

- **Microsoft O365**

- o   Licensing for email has been purchased.

- o   Migration is expected to take place sometime in the next 2 weeks and is estimated to be completed before the end of the month.

- **Multi-Factor Authentication**

  - o   Migrating to O365 for email will satisfy MFA requirements.

  - o   New equipment and changes to the current network infrastructure will need to be made to correctly implement MFA for the City of Groveport.
