VI. Business of Guests**1. William Kurey**

William Kurey of 286 Walnut Street, a property directly adjacent to Oak Alley and Cherry Street, addresses Council with concerns regarding the City's plans to take down the old police building across from Kids Space. He is concerned with what will be left if the building is gone. There is a very large tree on the corner of the property and room for three cars to park. He would like to know the replacement value of the solidly built brick building that could still serve for a time. He and other residents

are worried about property values and the loitering that is going on even now. Mr. Kurey does not know what the zoning is currently or if the zoning will be changed for parking. Kids Space and the 4th of July events bring a lot of foot traffic to the area. Administrator Hall responded alternate uses for the building have been discussed by Council in the past. The City had an architect look at the structure and it was determined it would take between \$50,000 and \$80,000 to bring the building up to code for public use. Additional parking for Kids Space was also discussed with the former Community Affairs Director. As to the cost of renovating the building for public use, Council had approved money to take the building down, not renovate it, in the budget at the Budget Workshop. Since that time, Ms. Hall was approached by Council Member Hilbert to look into other possible uses and to have the matter put on the agenda for the next Committee of the Whole meeting to be discussed. Nothing is currently planned and nothing will take place until an ultimate decision is made on the issue.

IX. Other Business

Council Member Rarey has been contacted by residents of Front Street and in the southwest corner of the City in regard to the control of animals. There is a big concern about the animals that run loose during the night hours. This has been an ongoing problem for years. He brings this to Council's attention so the issue can be resolved. Mr. Rarey raised the issue of the vacant houses in Groveport in the southeast area of the City that are overrun with animals. Mayor Westcamp commented on all the feral cats running around in the City. Council Member Hilbert proposed contacting Franklin County about their nuisance officer helping with the matter. Council Member Cleary commented he has set live traps to capture raccoons in his area. He has caught eleven raccoons so far this year. Mayor Westcamp referred the issue to Administrator Marsha Hall to look into possible solutions to control the animals in the City. There were discussions on having a City Nuisance Officer or hiring a private company, but that could be too costly. Council Member Dildine mentioned Canal Winchester has dealt with this same issue and was advised to be careful on how they resolved the problem. Ms. Hall commented the costs nine years ago for every critter trapped was \$45.

Council Member Dildine thanked Ms. Hall for taking care of the residents on Falk Court, he appreciates her responding to their concerns.

Council Member Hutson had spoken to Engineer Steve Farst regarding the prep work for the sewage that has started on Hendron Road by the Senior Village project. Residents have expressed concerns about the large area staked out in preparation.

Administrator Hall reported Main Street at the Town Center project will be closed down to one lane on Thursday and possibly Friday to pave the street and the parking lot.
