A. Mayor - Lance Westcamp

Mayor Westcamp expressed his appreciation to Warren Motts for his time and support with the Memorial Day Service. He said it is a blessing to have Motts Military Museum and all his volunteers and supporters in Groveport. He further stated Council Member Cleary pointed out to him how all the flags displayed in the cemetery looked very nice.

B. Administrator - Marsha Hall

Administrator Hall said per the recommendation for approval of the Town Hall items to be donated (at the last meeting); she

would like a motion at tonight's meeting. She noted that a paper trail will be provided for both donations.

A motion was made by Council Member Drury, seconded by Council Member Cleary, to donate a computer to the Heritage Society for use at the museum for their oral history project and a foosball table to the Lockbourne Church of Christ in Christian Union. The motion carried by the following vote:

Yes: 5 - Cleary, Drury, Hilbert, Rarey and Stoots

Administrator Hall indicated Members of the Preservation Committee are interested in forming a sub-committee to look into the development of a preservation/heritage/historic district that would provide assistance to property owners wishing to preserve their properties in a historically appropriate manner. She said this would not be developed in the same manner as a formal historic district because it would not include any formal zoning distinction, requirements for property maintenance, or enforcement of any kind and would just be the development of guidelines that could assist property owners within the designated area. She explained the Committee would like to know Council's thoughts before they put any time and effort into it.

Council Member Hilbert asked if this committee would be under the auspices of Council. Administrator Hall said no it is not a City committee, however, since the Mayor had designated the Preservation Committee, they wanted to get input from the Mayor and Council before moving forward. Council Member Rarey said they assist with a lot of issues that Groveport has faced in the past. Council Member Drury asked if this committee will be able to take any enforcement action regarding their established guidelines. Administrator Hall indicated it was more information based for people who want to preserve their home in a historic manner. Council Member Hilbert said she didn't have a problem with it due to it being only requested information for our residents.

F. Council Members - Ed Rarey, Jean Ann Hilbert, Donna Drury, Ed Dildine, Shawn Cleary & Jan Stoots

Council Member Rarey expressed his concerns regarding sidewalks. He said several years ago Council decided to continue to work to build sidewalks and walkways, including restoration of existing sidewalks. He believes this is very important for our residents and asked the Administrator to check into this matter. He pointed out that some streets have no sidewalks on either side of the roadway or only partial sidewalks and said that is a strong concern of his for the residents. He said that the sidewalk in front of the cemetery is a major concern due to it leading down Wirt Road to the Elementary School.

Mr. Green indicated they are still working on the Safe Routes to School project, which addresses the walkways to the schools. He said they are addressing a pending issue regarding providing personal information on the students being a safety measure with the schools. He said they just received an email from the State indicating they would accept broader information with just basic intersections as opposed to the children's addresses. He said this will be a long process and they will continue to follow up on the matter. Council Member Rarey said they have been waiting for action on the issue for a very long time. Mr. Green said that the State is finally saying they will take less information to get the project done. Council Member Rarey asked if it can be pushed through if we don't get the grant money. Mr. Green said that would be up to Council to pay for the entire project. Council Member Rarey said he hopes that we strongly consider moving forward no matter what the cost to the City.
