Report to Council:

Community Affairs Director – Patty Storts

I am very excited to be the new Community Affairs Director for the City of Groveport. My goal as the new director is to evaluate how the department has been run in the past, make changes where necessary and enhance on the programs that are currently being run and bring fresh ideas to the department.

I have reached out to the other departments and want to work with them to combine activities together where there are not so many smaller events where we are shutting down streets and inconveniencing residents and businesses. **By** combining events I feel there would be a cost savings to the city.

My door is always open and feel free to stop in anytime.
