The ramp on the south entrance has been completed and work has begun on the new patio. After a slow week where the ramp took most of the week away. Decker's crew is back to earth work and hopes to make up for lost time. Grading the retaining wall for the patio has begun. A temporary pole will be set to the east of the building so work can continue on the patio. Placing the temporary pole will allow Decker to maintain the timeline. Construction of the new green complex should beginning this week.
