

CITY OF GROVEPORT  
REPORT TO MAYOR AND COUNCIL

**June 23, 2014**

**ADMINISTRATION – Marsha Hall**

- Status of on-going projects
  - Town Center project – *In progress*
  - Port Rd. reconstruction – *In progress*
  - Water Treatment Plant – *Pre-construction meeting scheduled*
  
- Pond Rules

I researched the ODNR state rules for fishing. Their limit for trout, which is what I understand we stock at Palm Pond, is five (5). I have added this limit to our Pond Rules in order to coincide with their rules. Various other fish have different limit amounts and some have none. In case we would ever stock with other types, using five for any type would be the most simple. Assuming Council approves this addition by passage of legislation, I will have new signage created. The Park Hours signs have already been ordered.
  
- Holiday

Just a reminder that the offices will be closed Friday, July 4 for the Independence Day holiday.

Upcoming Meetings

June 17	Mtg. with Franklin County Engineer
June 18	Mtg. re. 2015 Capital Improvement Plan
June 24	Preconstruction meeting re. water treatment plant project
June 27	Mtg. at Working Partners (Drug Free Safety Plan)
