

Report to Mayor and Council
March 17, 2014

	Rounds February	YTD
2010	0	55
2011	209	209
2012	334	621
2013	133	294
2014	0	16

The second phase construction on the hole #13 project will be completed this week and we will begin the clean up and grading process to have the area ready for play. As of this week, eight ash trees have been removed and four more are scheduled for removal next week.

EMH&T were out this week to evaluate and grade the suspension and continental bridges. They will be providing a report of the condition of both bridges and recommended repairs the first week of April.

Cliff Ward and Matt Knorr completed and passed their applicators' license this week.
