

Report to Mayor and Council  
April 10, 2014

	Rounds March	YTD
2010	837	892
2011	663	872
2012	1541	2162
2013	571	865
2014	528	544
2015	422	476

Minor to moderate flooding occurred with the heavy rains on April 8<sup>th</sup> and April 9<sup>th</sup>. Fortunately cool temperatures and our pumping water off the course should result in no turf loss.

The green side bunker on hole #2 is currently being renovated according to the Golf Course Master plan provided by the Hurdzan Design group. Once completed we will determine the next bunker to renovate, the plan is to address 2 to 3 more bunkers this season.

Several meetings are planned for the coming weeks to look at the hole #9 project, hillside and parking lot, and Maintenance building. As concepts and designs become available I will present them to the Mayor and Council for discussion.
