Chief Building Official Stephen Moore stated this lot is the old Kurtz Brothers property. Van Trust is getting ready to construct two warehouses. One will be a 730,000 square foot warehouse with access off of Green Pointe Drive and another entrance on Rohr Road. The second building will be a 280,000 square foot warehouse divided into four units for smaller businesses that can serve the larger warehouses. There are two lots so each building could be sold individually with its own entrance and signage. This approval is required for all planned development districts by section 1135.01 (e) of the Groveport Zoning Code.

City Engineer Steve Farst stated that Engineering staff have no objection to the approval of this final plat and suggest, if approved, the following conditions be made a part of that approval:

- a. Plat is to be signed and sealed by a professional surveyor, licensed in the State of Ohio.*
- b. Plat meets requirements under City Chapter 1191.09. Plans have been approved for site development and sanitary sewer. Both parties have reached the final wording in regards to the development agreement as to the sanitary sewer extension. As part of the development agreement, they are contributing a little less than \$200,000 towards the improvement by the Franklin County Engineer for Alum Creek Drive at the Rohr Road intersection, in addition to building and dedicating to the City public sewer.*

Clerk of Council Ross read by title Ordinance No. 18-014.
