Chief Building Official Stephen Moore:

The development plan for this project has been previously approved. The applicant is requesting approval of the Final Plat. This approval is required for all planned development districts by section 1135.01 (e). Staff has no objection to granting approval of the plat.

City Engineer Steve Farst:

The applicant is requesting approval of a Final Plat for the subject parcel that will result in subdivision of the parcel (following recordation) into three lots, less acreages in public right-of-way easement affected all three lots. The plat includes dedication of water utility easements, sewer utility easement, drainage easements and access easements, all in a manner generally consistent with the approved Final Development Plan for this parcel. It is noted that this plat includes dedication of additional right-of-way along the Alum Creek Road frontage and additional right-of-way along Rohr Road, and dedication of public right-of-way (aka "highway") easement.

Staff has no objection to granting approval of the final plat, but do suggest if approved, the following conditions be made a part of that approval:

1. Final plat shall be signed and sealed by a professional surveyor, licensed in the State of Ohio.
2. Plat meets requirements of the City of Groveport Chapter 1191.09.

Tim Ryan, Bluestone Representative:

Tim Ryan with Bluestone was present to answer any questions and/or concerns.

This Ordinance was read by title
