

# CITY OF GROVEPORT

## REPORT TO MAYOR AND COUNCIL

May 13, 2019

### ADMINISTRATION – *Marsha Hall*

#### *Legislation*

##### Ord. 19-018 Amend Recreation Center Membership Fees (3<sup>rd</sup> Reading)

Changes include:

- 1) Amend the fees so that the Day Pass Fees for the Aquatic Center (Outdoor Water Park) and Recreation Center are the same. This has become more important when considering the popularity of our Birthday Party Packages;
- 2) One change to the **Annual Pass Rates**. Staff added “Infant (0 – 2 Years)” classification. Persons in this age group were never charged, but nothing ever shown on the rate schedule;
- 3) One change to the **30-Day Pass Rates**. “High School Summer Pass” was added to the Ordinance. It has been in place as a “special promotion” for years;
- 4) Three changes to **Daily Fees for Non-Pass Holders**. The Day Pass Fees now mirror the Day Pass Fees associated with the Groveport Aquatic Center;
  - Youth (3 – 12 Years) classification was eliminated, as all day pass holders will pay the same rate regardless of age. *It is difficult for staff to determine age of customers and customers are not always truthful about the age of children in their party;*
  - Adult (13 Years & Above) classification was eliminated, as all day pass holders will pay the same rate regardless of age. *It is difficult for staff to determine age of customers and customers are not always truthful about the age of children in their party.*
  - 20 Day Passes (Group Rate) was eliminated.

##### Ord. 19-021 Elm Street Parking Restrictions (2<sup>nd</sup> Reading)

Two Council members asked if staff would look at the possibility of making the narrow, western portion of Elm Street one way because of the difficulty of traveling on that section of the street due to its narrowness. We have verified that all houses along that stretch have off street parking. Legislation is being considered to limit parking on Elm Street from College to West to the south side of the street.

#### *Miscellaneous*

##### MORPC Corridor Concepts Study Presentation

Steve Farst, Jeff Green and I attended this on April 30. This study looks at future development and infrastructure needs along five main corridors in Central Ohio. One of the corridors studied is southeast corridor, which includes Groveport and Rickenbacker. The study can be found on MORPC’s website under Insight 2050 Corridor Concepts Report.

##### Half- Mast Flags

Flags will be flown at half mast on May 15 for Police Memorial Day.

## CITY OF GROVEPORT REPORT TO MAYOR AND COUNCIL

### Mass Casualty Exercise

GREAT transportation will be involved in Rickenbacker's June 13 mass casualty exercise at the request of Fire Chief Fasone. Bob Dowler is attending planning meetings and will be the department's liaison for this drill.
