

Report to Mayor and Council
July 20, 2020

	Rounds	
	June	YTD
2014	4,981	11,690
2015	3,787	10,684
2016	5,099	11,504
2017	4,890	12,373
2018	3,764	8,952
2019	4,433	10,669
2020	3,691	6,766

Despite the restrictions and limited tee times the course has remained busy. Operating at 60% tee times capacity we are less than 20% off last year's rounds for the month of June. We are continuing to follow the same safety protocols and procedures for operations that have been in place since May 1st.

The course has held up well during the hot streak we experienced over the last couple of weeks. Minor repairs to the irrigation system were made last week. A pressure tank was replaced on the front 9 pump house, a 6 inch T-Line connection was repaired, and a 4 inch line on #8 was repaired.

Hole #14 continues to slowly come fill in. I'm planning to aerify and overseed the fairway and rough again in August.
