

CITY OF GROVEPORT

REPORT TO MAYOR AND COUNCIL

February 2026 Highlights

Communications Department – Bodhi Ebright

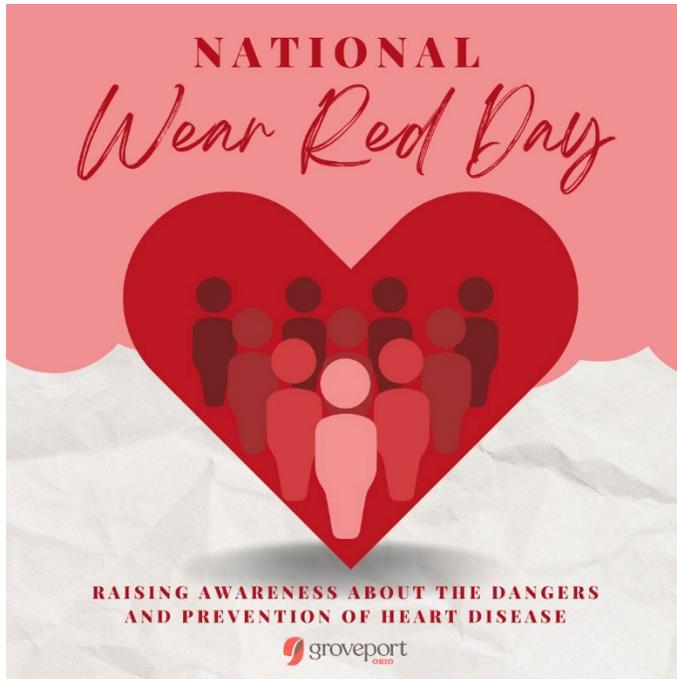

MAIN AND WIRT REALIGNMENT PROJECT REMINDER 2/3

Continued to update residents/followers about the construction on Wirt Rd. AEP was moving power lines underground and we encouraged families not to drop their kids off in the municipal parking lot along Wirt since it's an active construction zone. Instead, we asked parents to consider dropping students off at Main/Crooked Alley. Students could then use the Main St sidewalk to reach the schools safely.

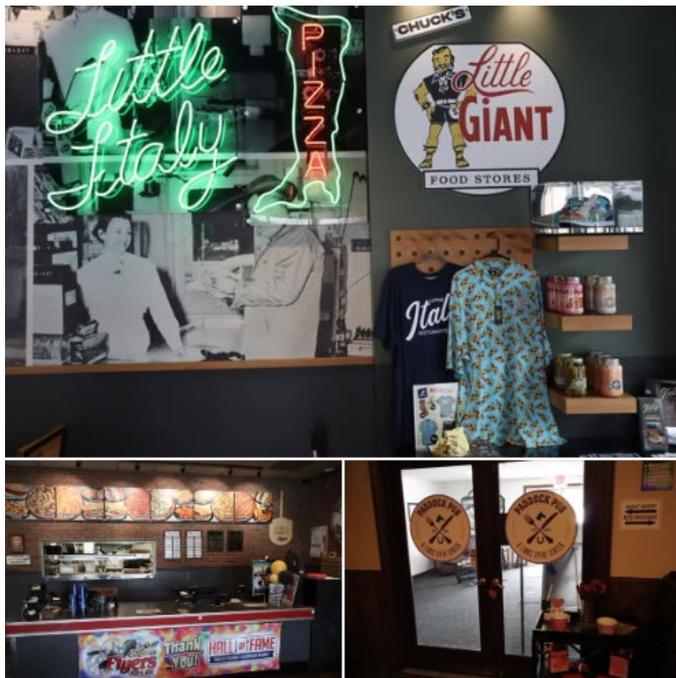

NATIONAL WEAR RED DAY 2/6

It's part of American Heart Month and helps raise awareness about heart disease, which remains the leading cause of death for women in the U.S. We encouraged people to wear red that day to show their support for the AHA's mission to save lives.

NATIONAL PIZZA DAY 2/9

Promoted that we have multiple pizza options around Groveport: Went around and took pics of Little Italy, Flyers & The Paddock Pub.

CITY COUNCIL NEW CHAPTER 2/10

Mayor Westcamp and City Council met for the first time the night before to begin the new term. Mentioned that they were ready to get to work on projects that strengthen our neighborhoods, serve our residents, and support the community we're proud to call home.

MERCHANT MILESTONE 2/11

The Flower Boutique is celebrating 40 years in Groveport! Since Valentine's Day was coming up, I put our local business spotlight on the shop's owner/manager Christina Zarbaugh-Lewis. Informative Q&A with her about her family's roots in Groveport, which flower lasts the longest for Valentine's Day and how far in advance people should order flowers from her shop, so they're prepared.

CITY TEAMS UP WITH GM SCHOOLS 2/13

I asked the school district to partner with us on an art project. I thought it'd be a great idea to have art students create something that we could hang up in the former Floyd's Hot Rod Shop windows as a way of sending the building off on a good note before demolition. Their art includes names of some of the businesses that called that building home over the years.

NATIONAL ENGINEER'S WEEK 2/25

Celebrated by spotlighting our Director of Engineering – Steve Farst. He's served our community for 30 years. Talked about his favorite city project, his love for the Cincinnati Reds and the advice he'd give to students who are considering a career in Engineering.
