

CITY OF GROVEPORT
REPORT TO MAYOR AND COUNCIL

January 14, 2015

Engineering Department – *Steve Farst*

- Capital Projects:

- | | |
|-------------------------------|--|
| Town Center construction - | Site is stabilized for the winter. Remaining punchlist items to be addressed in spring/when weather breaks. |
| Water Treatment Plant - | Roof erected in December; under construction. Pipeline work completed in December. Process equipment being installed. |
| Links at Groveport/Sanitary - | Sanitary pump station/wash station design underway. Also reevaluating Hillside improvements with Tom Walker and the design engineer. |

- Streets/Street:

- | | |
|---------------------|---|
| 2015 Street Program | Engineering analysis underway, to select appropriate streets for maintenance resurfacing activity. Project construction documents will also include improvements related to the Wirt Road sidewalk improvement, Phase 1. Bidding expected to occur in March 2015, with construction this spring/summer. |
| Noise Mitigation - | Response was returned from ODOT (see attached email). ODOT has determined the Westport community alongside SR317 is not eligible for a Type II noise wall because the route predates the subdivision. They add, “however, if a project comes along that will add new thru lanes to SR317 adjacent to the community, that will trigger the requirement for a noise study that could potentially trigger a noise wall.” We are reviewing other options for this area. |

- Development projects:

- | | |
|--------------------------|---|
| Van Trust Site/Rohr Rd - | Water line work alongside Rohr Road proceeded in December. |
| Opus Rick VIII site - | Greenpointe Dr cul-de-sac punchlist is being assembled. |
| Exel Site/Commerce Ct - | Site construction still underway. |
| Hendron Senior Village - | Sewer construction east of SR 317 resumed in December and is still ongoing. |
| Aireast Ph 3 - | Site construction continues. Site engineering design was approved in December. Pontius Road water main extension is being reviewed. |

Please contact Steve Farst with any questions or concerns.
