Law Director Shannon read the staff report regarding Ordinance 15-026.

The applicant is requesting to relocate and reconstruct a building that was donated through the development agreement for the property located at the corner of Pontius and Rohr Roads. The property is in the process of being donated to the Groveport Heritage and Preservation Society by the City of Groveport. The current zoning of the property is Urban Residential (R-6). The use requested as a historical museum is not a permitted use in the (R-6) zoning district. The applicant states that they will not be providing on-site parking and request the use of the parking lot at Heritage Park. The applicant also requests to be exempt from the landscape requirements and will install historically correct plantings around the building and the perimeter of the site at some time in the future. At the present time they will leave the existing perimeter screening and landscaping in place. The applicant also plans to install signage similar in design to the Log House in Heritage Park. The existing garage structure will remain for use as storage for the site.

CONCLUSION: Staff has no objections to granting the use variance as requested. Area variances will be required to be approved by Council for the off-site parking and the landscaping. Also the plan submitted does not show distances to property lines to determine setbacks. Council will need to approve the location as shown on the submitted plan since it does not appear that the proposed location meets the required rear yard setback. Council will also need to approve this lot not having the required road frontage along Wirt Road.

Fred Hutchinson with ReDesigns Architecture, 1166 Bryden Road, Columbus, Ohio was present as agent for the Groveport Heritage and Preservation Society. Mr. Hutchinson is the architect working with the Heritage Society.

Carolyn Stuhr of 547 Canal Street addressed Council with her concerns of the location of the historical building on the lot. Ms. Stuhr is concerned the building will obstruct her view of the Log Cabin and the Groveport Cemetery. She does not know what building the

Society will be relocating nor how the building will be utilized. Mayor Westcamp informed Ms. Stuhr the building being relocated currently sits on the site located on the southeast corner of Rohr Road and Pontius Road. Administrator Hall explained the building will be used as a museum, but not a museum that people can enter. It is her understanding the Heritage Society plans to have visitors walk around the outside of the building where video displays can be activated to explain life during the "Canal Era". There will be no parking on the site. She further explained that the walking path will be on the Wirt Road side of the building, hopefully not causing any disturbance to residents.

Clerk of Council Ross read by title Ordinance No. 15-026.
