G.R.E.A.T. Program Burns Rubber

Groveport Rickenbacker Employee Access Transit has hit the road! On September 28th, 2015 COTA Line #81 riders and area pedestrians found a new way to work in the Groveport, Obetz and Rickenbacker commerce area. In a collaborative effort spearheaded by the City of Groveport in partnership with COTA, the Village of Obetz and MORPC, the group has done what employers in the area have long asked... provide a safe and effective last-mile solution for employees using public transportation to get to work.

Continued on page 2

Groveport Municipal Building, Town Hall & Crooked Alley KidSpace will all be closed on Thursday, Nov. 26 & Friday, Nov. 27.

Fall Leaf Pick Up Continues

The Groveport Public Works Dept. will continue to pick up curbside leaves thru Dec. 10. Residents are asked to rake their leaves close to the curb, but not in the street. Leaves in the street cause issues with water flow and sanitary sewers. Debris other than leaves, such as twigs, rocks and trash, will not be picked up. Please avoid parking vehicles in front of or behind leaf piles. Any questions, call the Public Works Dept. at 614-836-3910.

G.R.E.A.T. Program Burns Rubber continued...

Employees can now transfer from COTA Line #81 directly to one of three shuttles to make the last mile commute safe and comfortable.

The three GREAT shuttles maintain routes with less than 30 minute cycle times to seamlessly connect with new and expanded COTA Line #81 service to the area. These connections are made at two existing COTA stops (Creekside Parkway & Alum Creek Drive and London-Groveport Road & Alum Creek Drive) which are being improved with concrete pads and shelters in the near future. Engineering is underway. Using COTA buses and GREAT shuttles, a rider will be able to route from their residence to their employer on COTA's Trip Planner as well as on Google Map in coming days.

Bob Dowler, Director of Transportation states, "The launch was smooth as riders started and completed their commutes to work and home via all routes Monday. Ride numbers are growing daily and employers are expressing more interest to pass the GREAT service along to employees as they see this project take shape. Our hope is that this service will become a valuable tool for employers to hire and retain the best staff available seasonally and year round."

Riders should see their employer's Human Resources or Personnel Department for details. They can also retrieve route information at www.cota.com/great.

Employers should email great@groveport.org for complete information. Get the latest GREAT updates and information by texting "GREAT" to 888-777 (Groveport Community Announcement System)

Sports Safety

Choosing to allow your child to play in **sports** is a very important decision for many families to make. Parents find that they run into many questions when making the decision for their child to become active. For example: when should their child start, what is the best sport for the child, what are some precautions that parents and children can take before playing sports and so on. It is important to research everything that is expected physically and emotionally of your child before they start an activity.

The answer to some of these questions and many more on can be found at **Nationwide Children's Sports Medicine** website at: www.nationwidechildrens.org/sports-safety

If I could give one tip for people - it's not an exercise or nutrition regimen. It's to walk your talk and believe in yourself, because at the end of the day, the dumbbell and diet don't get you in shape. It's your accountability to your word. — Brett Hoebel
