

FACILITIES and PARKS STATUS

February 16, 2016

- We have cleaned and re-organized the basement of the Municipal Building. It looks great and everything is in its place.
- The Parks Department picked up a 1 ton dump truck with a snow blade and tarp. The truck was part of the 2016 budget and will make snow removal, salt spreading, mulch hauling and other tasks much easier and more efficient.
- A new security system has been installed in the Municipal Building. Card access is now required for entry after hours and the system will keep a record of who is in the facility. **This project is now complete**
- The Madison Township Fire Department has inspected the Municipal Building, Police Department, Town Hall and Kid Space. The MTFD was invited to inspect our facilities so we would know if we had any violations. We had a few but did very well overall.
- The Parks Department is busy ordering Spring materials and we will be ready as soon as the weather breaks.
- The Facilities Department has been doing an assessment of all the facilities so that monthly, quarterly and annual projects can be stored and scheduled into the FMX system. **This project is ongoing.**
- We have begun the new building project at the water plant site. The first phase is the demo of the three old facilities and the cleanup of the site. A time line will be set after the utilities are disconnected and asbestos testing is complete. We have

disconnected the utilities and we expect demo to take place in a month or so.

- We have put together a new facilities workshop in the basement of the Municipal Building. The space allows room for a work bench, file storage, a desk and a used computer and shelving for stock and materials.
- The mild winter has allowed for more than average work to be done in the city parks. Work includes pothole repair, sign repair, clean out creeks and drainage, raking mulch in playgrounds cutting pompus grass and cutting brush back at Palm Pond.
- All air conditioning system in all facilities have been serviced and will be ready for the upcoming cooling season.
- The green house has been cleaned out and organized so that we will be ready for the annual flower planting project.
