**VI. Business of Guests****a. Madison Township Fire Chief Fasone**

*Madison Township Fire Chief Fasone reported that the department has transitioned to a new software reporting system. Staff is merging the fire and EMS statistics to one report. The new report is now in the process of being adapted to read as the department's previous reports. Every 3 years the department has a mass casualty drill at Rickenbacker International Airport that the port authority is required to perform. The department usually gets COTA involved to shelter and take care of the*

*minor injuries and the walking wounded. COTA buses can be seen all over Central Ohio and has its depot on the west side of Columbus, therefore, it can take the buses awhile to get down to Rickenbacker in the event of a mass disaster. This year, Chief Fasone contacted City Administrator, Marsha Hall, about the possibility of having the G.R.E.A.T. program buses and employees participate because they are more centrally located and their response time to the area would be tremendous over COTA's. This year's drill will take place in the next few months. He thanked Ms. Hall and the Director of Transportation, Bob Dowler, for their professionalism and eagerness to participate and share the City's services. Chief Fasone really appreciates their cooperation.*

AN ORDINANCE LIMITING PARKING ON ELM STREET TO THE SOUTH SIDE FROM COLLEGE STREET TO WEST STREET

Sponsors: Hilbert

*Mr. Cleary read from an email sent by Wayne White stating that "My position will be that if no parking is going to be allowed on the north side, at the minimum, I would like to see yellow curbs at each intersection alleys to prohibit parking and making turns a little easier." Administrator Hall commented this matter was raised about three years ago but did not go very far after the initial discussion. No legislation was introduced at that time. This time the matter was looked into per the request of two members of Council. This ordinance will make it easy for large emergency vehicles to navigate the narrow street. There was a suggestion of placing a stop sign at Elm Street and Center Street to help slow down traffic. Vehicles can be parked on the street for 72 hours without moving. Mayor Westcamp doesn't see a problem with parking on both sides of Elm Street, it has worked for all these years. He understands it can be a problem when there are two vehicles parked*

*across from one another and large emergency vehicles try to get through the lane. Law Director, Kevin Shannon, advised Council on the matter of the stop sign. A stop sign cannot be used to regulate speed per State law.*
