

Report to Mayor and Council
November 2016

	Rounds	
	October	YTD
2010	2,516	29,409
2011	1,998	25,779
2012	2,342	31,946
2013	1,880	28,241
2014	1,423	27,152
2015	2,041	25,421
2016	2,199	25,641

Preparations for winter continue. The greens were deep tined on November 15th and we're holding off on the final snow mold application until the warm temperatures pass. A core sample was taken from the new #9 green and the depth of the roots is about 5 inches. Barring any major disasters, we're on schedule for a spring opening and the green should hold up very well to foot traffic.

The solar lighting for the Groveport and Richardson Rd sign is scheduled to be installed on Thursday Nov 17th. The final cost for the lighting came in at about \$5000.00. This is well below the original estimate of \$60,000 to run power to the sign and the previous estimate for a solar light from a different vendor of \$28,000.
