Green aerification is taking place this week. It has been posted on the doors and on the phone greeting for the last 2 weeks. We're also reminding players when they call in for tee times. Weather following aerification looks good and should aid in a speedy recovery.

Final permitting and documents have been received for Hole #14 project. As soon as the contractor is available we will begin construction. Hole #14 will be played as a Par 3 during construction and grow in. We're hoping for a good grow in and have the Hole available for normal play at some point in the spring.
