VIII. Reports

A. Mayor - Lance Westcamp

Nothing to report.

B. Administrator - Marsha Hall

Administrator Hall thanked the Council Members for the information provided to her regarding the trash contract. Staff will be going through the contract with SWACO for a number of months to put together a bid proposal. Ms. Hall noted that at any time during the process of selecting a trash vendor, Groveport can opt out of the trash consortium and do its own bid process. Ms. Hall requests that Council consider going into executive session to discuss an imminent legal matter. Ms. Hall requests Council consider discussing the Schottenstein development plan modification that is currently going to Planning & Zoning and will come before Council for modification of their current development plan. Part of the conditions of the current development plan requires the owner and the Groveport Heritage & Preservation Society to come to a written agreement as to what to do with the two buildings considered to be historic structures at the southeast corner of Rohr and Pontius Roads. It will need to be decided before any plat is signed by the City. The Heritage Society has been in contact with the owners and needs to know if the City is interested in providing any property where they could relocate the brick out-building. Carla Cramer from the Heritage Society was in attendance to provide any information from the Heritage Society. Council Member Rarey commented on where the Heritage Society might be going in the future. He wants to make sure the Heritage

Society receives what it needs to educate the community on the experiences of the past. Mayor Westcamp asked Mr. Rarey if he agreed that the house structure was not worth preserving. The Mayor commented there are several options open to the Heritage Society as it pertains to this matter. He believes in the original development agreement, the property owner was willing to give the whole corner, with both structures, to the Heritage Society. Mrs. Cramer stated the owner claims no one currently there knows anything about donating that corner. The property could not be owned by the current company if the Groveport Heritage & Preservation Society were to maintain and occupy the structures. Ms. Hall read the original agreement stated "shall be set aside in a reserve and the owner shall negotiate a written agreement with the Groveport Heritage & Preservation Society regarding the relocation and/or rehabilitation of said structures". Mayor Westcamp commented a sign needs to be placed at the original corner of the two structures so it is not forgotten what was once there. The property across from the Log Cabin offers various attributes for a new site for the Heritage Society to relocate the brick structure; it is closest to the original site, it is right on the canal, it is easily accessible for education purposes and the general public, there is parking nearby and it would be less susceptible to vandalism. The City could deed the property over to the Heritage Society before the relocation of the structure. The matter of the agreement between Schottenstein and the Heritage Society will need to be resolved before the City plats the development.
