

CITY OF GROVEPORT

REPORT TO MAYOR AND COUNCIL

May 18, 2015

ADMINISTRATION – *Marsha Hall*

- Legislation

Heritage Society Use Variance – The society turned in an application for a Use Variance for the relocation of the historic structure to the property we are donating to them. The application is actually in the City's name because we still have ownership. I have provided them with a letter authorizing the society to act as the City's agent for this request.

Amending Water Rules and Regulations – We had an issue occur recently that we want to address in our water rules. Unbeknownst to us, the senior facility on Green Ave did routine flushing of their fire lines which stirred up sediment in our water main. This resulted in orange water in the local main and numerous customer complaints. Once we became aware we went over immediately and flushed the hydrants. We want to add a requirement to our rules that the City must be notified prior to flushing of a fire service line in order to have time to notify the area residents.

- House Numbers

At Ed Dildine's request, we will be submitting a small article to the Southeast Messenger explaining the need to have house numbers on houses within the City, then will send letters later in the year during non-peak time.

- Out of Office

I will be out of the office May 21 through May 26. As always, if you need me I will be available by phone or email.

Meetings Attended:

May 12	Mtg. with Franklin County Engineers re. Northpointe traffic study
May 14	Review Rec Center reorganization with Department Head
May 15	Armed Forces Day celebration
May 18	FOP Negotiations
