

CITY OF GROVEPORT

REPORT TO MAYOR AND COUNCIL

July 11, 2016

ADMINISTRATION – *Marsha Hall*

Legislation

Amendment of 143.17 Wellness Program (3rd Reading)

After allowing free use of the recreation center as an incentive while hiring lifeguards, I was asked by Council members to modify our policy to allow all part-time recreation employees free use of the center. At the same time, Kevin and I became aware that the federal government has made some changes to their rules as it pertains to wellness programs being a taxable benefit. Their latest rule is that you cannot require a medical examination for a true wellness program. If we do, this is not considered a wellness program and the benefit is considered taxable. We are proposing to modify the language to not include this requirement.

Re-zoning of 2690 London Groveport Road (2nd Reading)

Re-zoning from Rural (Unzoned) to Community Service (CS). Recommendation from Planning & Zoning Commission

Authorization to Apply for MORPC-Attributable Transportation Funding 2018-2023 (1st Reading)

This emergency legislation is required to submit an application for grant funding of 80% of the cost to replace the current GREAT fleet with ADA accessible buses when needed sometime between 2018 and 2023. Emergency legislation and three readings are requested due to application deadline.

Miscellaneous

4th of July Event

The 4th Celebration seemed to be very well received. We will begin plans for the 2017 event in short order. The parade route will need to be changed next year due to the schedule for completion of the Hendron Road Reconstruction Project. This project will begin in April, 2017 through the year, with as much completed as possible while the school is in Summer recess.

Meetings; Events

Meetings Attended:
