Effects of the July flood are still lingering but the course has started to show significant signs of recovery. All renovated bunkers have been repaired except the back bunker on 9. We will address it later in the fall as it requires extensive work.

The new patio tables and chairs have been placed on the patio and are available for use.

Green aerification is taking place this week. It has been posted on the doors and on the phone greeting for the last 2 weeks. We're also reminding players when they call in for tee times. Weather following aerification looks good and should aid in a speedy recovery.
