The impact of the July floods and the resulting damage are reflective in the drastic drop in rounds played for 2017. We continue to discuss options in the event of any future floods and any possible solutions to mitigate damage to the course.

Tom Topp Construction has completed renovation of the remaining bunkers on the course as outlined in the Master Plan. All bunkers on the course have been reconstructed, drainage in place, and all new sand. Moving forward we will be focusing on tee locations to improve playing options for all player skill levels.
