

CITY OF GROVEPORT
REPORT TO MAYOR AND COUNCIL

May 28, 2019

ADMINISTRATION – Marsha Hall

Legislation

Ord. 19-021 Elm Street Parking Restrictions (3rd Reading)

Two Council members asked if staff would look at the possibility of allowing parking only on one side of the narrow, western portion of Elm Street because of the difficulty of traveling on that section of the street due to its narrowness. We have verified that all houses along that stretch have off street parking.

Miscellaneous

AEP Special Event Signage

AEP is the host for the Institute of Electrical and Electronic Engineers' (IEEE) biannual ESMO conference June 24-27. Sixteen countries are currently registered and over 600 participants are expected. They are working with the City for permits needed for this event. Their request for signage, due to the size of the event, cannot be approved as dictated by the City's Zoning Code. At tonight's meeting I will be providing signage information and requesting that Council consider approving their signage plan for this special event.
