

Council Update – September 21, 2021

Community Affairs Department – Patty Storts, Director

### **Farmers Market**

We had a great year and the best year ever for the Groveport Farmers Market. We ended up with 17 registered vendors and an average of 10 vendors every week. I spoke with all of vendors last Tuesday, thanked them for participating and every one said they were pleased with the market and all of them said they would return in 2021.

### **KidsFest**

Because KidsFest did not happen this year and not knowing whether school would be back in session or not Town Hall still wanted to do something for the kids. We purchased 500 children's face masks to be handed out with the school supplies collected by the Greater Groveport Madison Human Needs school supply giveaway.
