

RECREATION DEPARTMENT

Council Report for May 17, 2021 Committee of Whole Meeting

Groveport Recreation & Aquatic Centers

In light of Governor DeWine's decision to lift all COVID-19 restrictions on June 2, 2021, staff is currently working on developing "modified plans" with Administrator King for the operation of both the Groveport Recreation Center and Groveport Aquatic Center.

June Newsletter

The newsletter is currently "on-hold" as changes will be made to programming,

Leak Detection at Groveport Aquatic Center

American Leak Detection was at the Groveport Aquatic Center for their annual spring inspection. The group found a few leaks. Unfortunately, we had to drain approx. half of the pool to further analyze the situation.

The main leak was coming from an underground 1.5" pipe feeding a line at the In-Water Playground. The valve for this line has been closed. A small leak was also located at a failed wall return fitting at the lazy river. A few leaks from cracks were also detected in the dive well. All items will be addressed after the season. The pool is now full.

Cold Beverage Provider

The City of Groveport will be signing an exclusive contract with G & J Pepsi in the near future. Vending machines will be played in the Recreation Center, Aquatic Center, Senior Center, Public Works Facility and the Police Station.

Spring Community Garage Sale

The sale is scheduled for Fri., May 21 and Sat., May 22 (9 am – 6 pm). Persons may register at the Groveport Recreation Center thru May 17. Cost is \$5 per household.
